1964-65

SUMMER SESSION 1964

June 8, Monday	First Term Registration
June 26, Friday	First Term Ends
June 29, Monday	Second Term Registration
July 17, Friday	Second Term Ends
July 20, Monday	Third Term Registration
August 7, Friday	Third Term Ends

1964-65 REGULAR SESSION

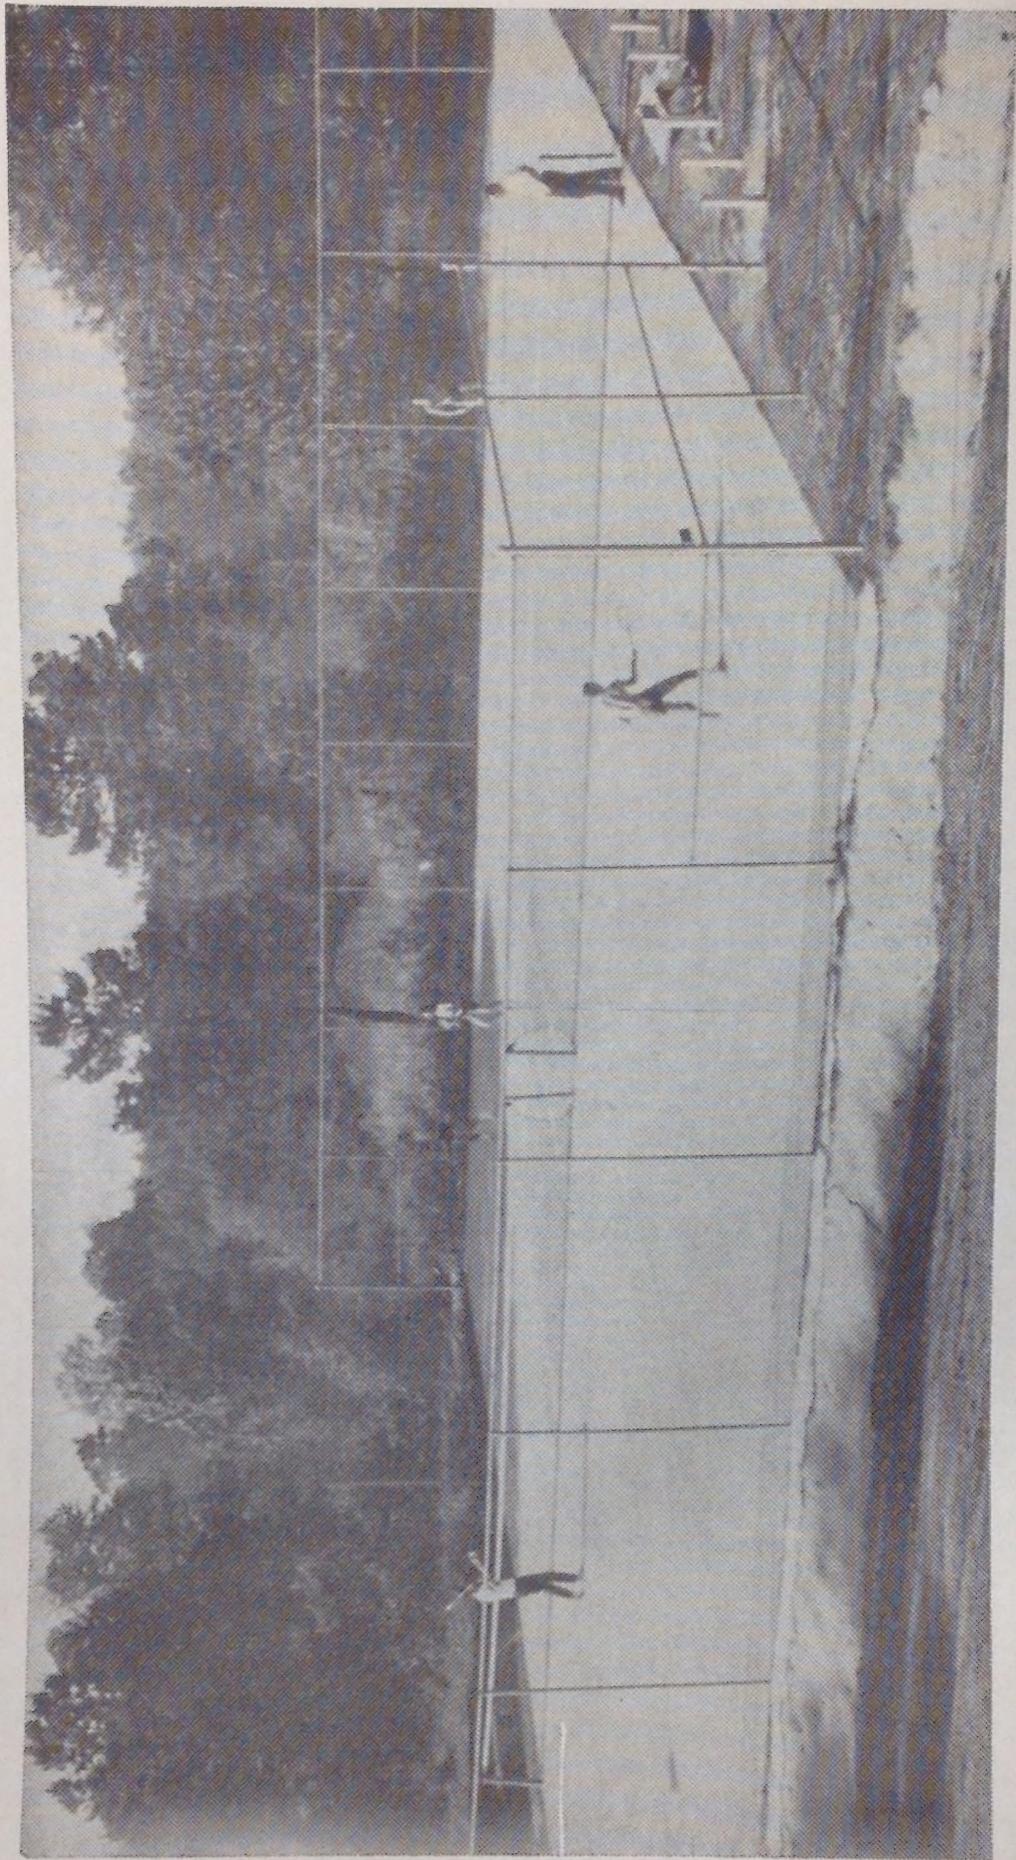

August 24-September 2	Pre-registration and classification of students between 8:30 and 3:00 P. M.
September 3, 4	Faculty Meetings
September 5	American College Test given in Library
September 7-9	Orientation of new students, registration and classification of all college students
September 10, Thursday	College classes begin
September 21, Monday	Last day to register for full load
September 25, Friday	Last day to register for reduced load
November 25, Wednesday, 10:00 A. M.	Thanksgiving Holidays begin
November 30, Monday, 7:00 A. M.	Thanksgiving Holidays end
December 18, Friday, 3:26 P. M.	Christmas Holidays begin
January 4, Monday, 7:00 A. M.	Christmas Holidays end
January 19-22, Tuesday-Friday	Final examinations
January 22, Friday	First semester ends
January 25, Monday	Registration for second semester
January 26, Tuesday	Classes begin for second semester
February 8, Monday	Last day to register for full load
February 12, Friday	Last day to register for reduced load
March 17, Wednesday, 10:00 A. M.	Spring Holidays begin (May be changed to coincide with M. E. A.)
March 22, Monday, 7:00 A. M.	Spring Holidays end
May 23, Sunday, 11:00 A. M.	Baccalaureate Sermon
May 23, Sunday, 5:30 P. M.	Graduation
May 25-28, Tuesday-Friday	Final examinations
May 28, Friday	Second Semester ends

OFFICERS OF ADMINISTRATION

Frank B. Branch	President
Ernest W. Wilson	Dean
H. O. Thomas	Dean of Student Affairs
Robert O'Connor	Assistant Dean of Student Affairs
Mrs. Frank B. Branch	Registrar
Stanley F. Allen	Business Manager
Glynn Martin	Director of Guidance
Miss Christine Carithers	Dean of Women

COMMITTEES OF THE FACULTY**Credits and Curricula:**

Mr. Wilson, Mrs. Branch, Mr. Thomas, and Mr. Sanders.

Discipline:

For Men: Mr. Thomas, Mr. Fortenberry, Mr. Thorne, Mr. Lauderdale, Mr. Gibson, and Mr. Sudduth.

For Women: Miss Carithers, Miss Thomas, Miss Jackson, Mrs. Daniels, and Mrs. Hoffa.

Library:

Mrs. Dorsett, Mr. Burnham, Mrs. Branch, Miss Bostwick, and Miss Jackson.

Attala Hall, the latest type of dormitory, houses boys.

Dr. Hal M. Terry	College Physician
Kenneth Van Keuren	Maintenance
V. D. Spell	Maintenance
Harvey L. McCrory	Campus Policeman

The debating team is convincing.

Holmes Junior College Choir presents program.

General Information

LOCATION

Holmes Junior College is located at Goodman, Mississippi, in the eastern part of Holmes County. The town and college, located on Highway 51 eight miles south of Durant, can be reached by means of Southern Trailway Bus Lines. This location is especially convenient to students from Attala, Carroll, Choctaw, Grenada, Madison, Montgomery, Webster, and Yazoo Counties.

Goodman, though a small town, is well suited as the location for a junior college. Its people are proud of the school and accord its students a most cordial welcome. Through the churches—Baptist, Methodist, and Presbyterian—a special effort is made to serve the students of the college and make them feel at home.

HISTORY

Holmes Junior College had its beginning in 1911 when Holmes County set aside eighty acres of land near Goodman, Mississippi, and established Holmes Agricultural High School. It remained a high school until 1925, when one year of college work was added. After three years a second year of college work was added, and Holmes Junior College became a full-fledged junior college in 1928.

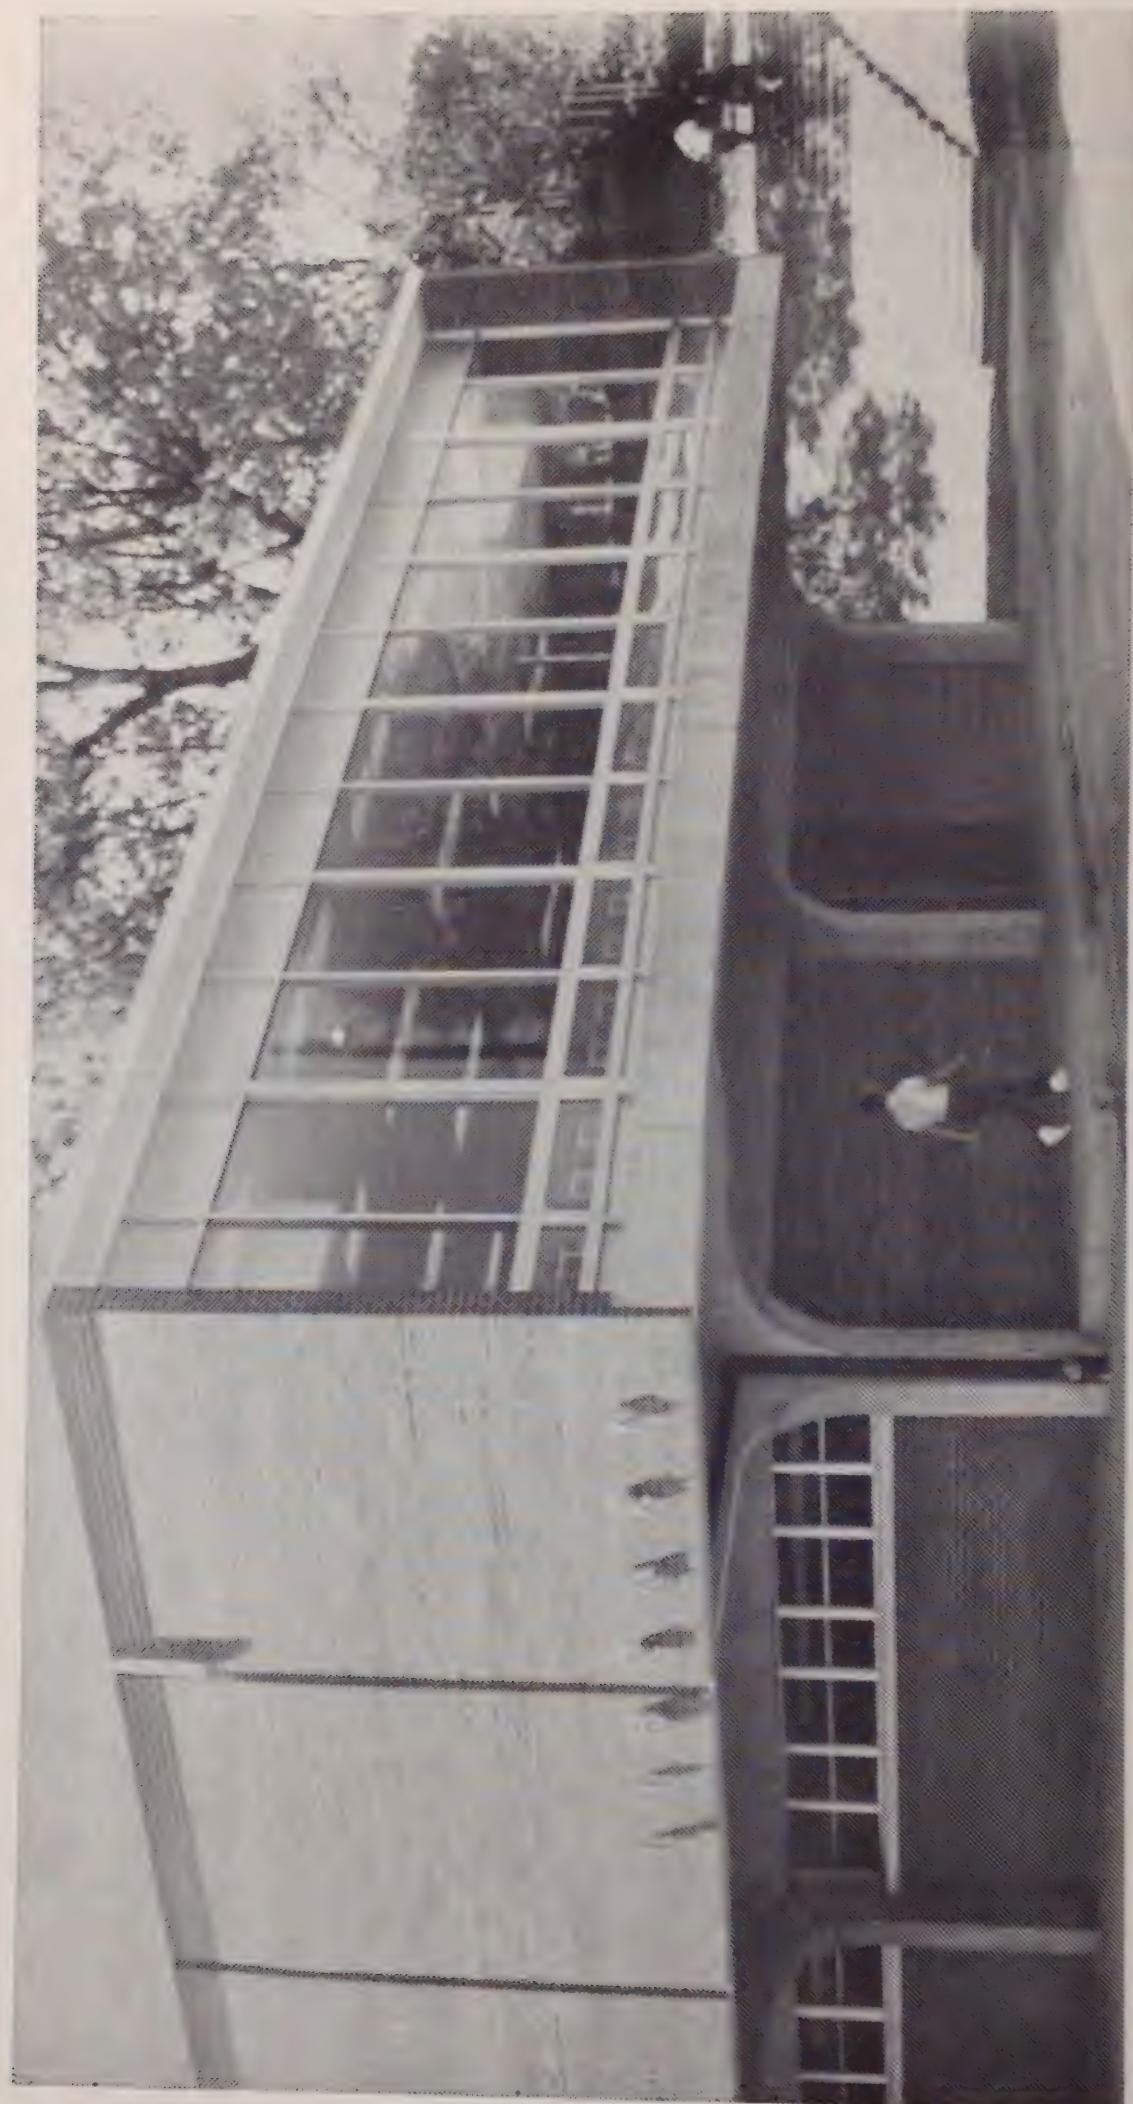

Holmes County has been responsible for the development of the plant which is now valued at more than \$2,000,000. Holmes, Carroll, Attala, Madison, Choctaw, Montgomery, Grenada, and Webster Counties now jointly support the college; and these counties through the Board of Trustees, composed of members from each of the above counties, jointly control the institution. The state, through legislative appropriations, has assumed an increasing responsibility for the support of junior colleges in Mississippi. Thus, through district and state cooperation, Holmes Junior College has come to take its place among the best junior colleges in the state system.

PURPOSE

The general purpose of Holmes Junior College is to provide a program of studies which will serve the educational needs of this area. These needs include a two-year college program designed for transfer to senior colleges and terminal programs for both college and vocational work. The aim is to offer these programs to residents of this area at the lowest possible cost that will assure good educational practices.

Specific aims of Holmes Junior College are as follows:

1. To make available close to home high quality pre-professional

The pride of the campus, the McMorrough Library.

and general education parallel to the first two years of senior college work at lower cost and with more individual attention than the senior colleges can provide.

2. To provide as rapidly as possible those technical and vocational terminal courses for which there is sufficient demand.
3. To provide an atmosphere conducive to serious study and an atmosphere that will encourage student responsibility, experimentation, and critical thinking.
4. To provide guidance and counseling for students in order to assist them to discover their abilities and interests.
5. To provide leadership and guidance in studies and activities that will bring about intellectual, cultural, spiritual, and physical development of students for responsible citizenship.
6. To cooperate with the community in activities that will be for the benefit of the area.

SCHOOL PLANT

The campus of Holmes Junior College, beautifully landscaped with shrubs and trees, is located on the highest peak in the area of about twenty-five square miles. The school plant has grown from the three original buildings to more than eighteen.

The Administration Building, erected in 1918, contains the offices of the President, the Dean, the Registrar, and the Business Manager. It also includes the auditorium and several classrooms.

The Science and Music Building, completed in 1946, houses the physics, the chemistry, the biology, and the music departments.

The Band Hall, built in 1939, contains practice and storage rooms for band members.

The Industrial Education Classroom Building, constructed in 1946, houses the drawing department and contains several other classrooms for general use.

The Agriculture-Cosmetology Building, built in 1931, was used originally as the agriculture building. In 1944 the cosmetology room and the laundry were added. It now houses agriculture classes, the cosmetology department, and the laundry and dry cleaners.

The Home Economics Building, erected in 1931, houses the home economics department and contains a living room, a dining room, a bedroom and bath, a foods laboratory, and a clothing laboratory.

McMorrough Library, constructed in 1962, is a beautiful, completely air-conditioned building. It provides ample space for reading, research, and storage of the ever increasing collection of books, periodicals, and magazines. There are now on the shelves approximately eleven thou-

A drama group rehearses.

sand volumes, exclusive of government publications and bound periodicals. In addition, many federal and state bulletins, unabridged dictionaries, encyclopedias, and general works of various sorts are provided for the use of the students. The library subscribes to between seventy and eighty magazines and daily and weekly newspapers, which provide current information on the affairs of the world and recreational reading materials.

The Gymnasium, built in 1951, houses the physical education department. It has a large main floor with an up-to-date basketball court, and contains dressing rooms for four basketball teams and the home football team.

Lorance Student Center, built in 1956, houses the bookstore, the canteen, and the campus post office. It also serves as a gathering place for the students during vacant periods and after school.

Carroll Cafeteria, a modern building, was completed and opened for use in September, 1963. It is completely air-conditioned and has a seating capacity of 380. Small groups can be accommodated in the private dining room which can seat about fifty persons.

The Shop Building, constructed in 1947, contains machinery for metal working.

Boys' Dormitory No. 1 was constructed in 1933 and has been completely renovated. This building houses approximately one hundred boys.

Boys' Dormitory No. 2, built in 1946, has also been renovated and houses about one hundred boys.

Attala Hall, a new dormitory, was completed and occupied in 1962. It is reserved for sophomores and can house approximately sixty boys.

Girls' Dormitory No. 1 was constructed in 1920. Completely renovated and refurnished, this building will house about eighty girls.

Girls' Dormitory No. 2 was erected in 1920. Plans have been made to renovate this building during 1964. It will then house approximately eighty girls.

Visitors' Quarters, built in 1944, house visiting athletic teams while on our campus.

The Faculty Apartments Building, an old structure which was completely renovated in 1947, contains six apartments for faculty families.

Boys in drafting class polish skills in afternoon laboratory.

EXPENSES

Expenses for non-boarding students from Attala, Carroll, Choctaw, Grenada, Holmes, Madison, Montgomery and Webster Counties:

Due upon entrance:

Matriculation fee (non-refundable)	\$ 5.00
Fees (for first semester)	20.00
School paper, THE GROWL	1.00
School annual, HORIZONS	5.00
Post office box fee	1.00
	<hr/>
Total for first semester	\$32.00

Due second semester:

Matriculation fee (non-refundable)	\$ 5.00
Fees (for second semester)	20.00
School paper, THE GROWL	1.00
	<hr/>
Total for second semester	\$26.00

Mississippi students whose parents reside outside of the above listed counties pay \$10 per month out-of-county tuition in addition to the fees listed. Out-of-state students pay \$100.00 per semester in addition to the fees listed.

OTHER FEES

Graduation fee	8.00
Late registration	2.00
Cosmetology Certificate	4.00
Secretarial Certificate	4.00
Drafting Certificate	4.00

**Expenses for Boarding Students
Schedule of Monthly Payments**

In-County refers to students from Attala, Carroll, Choctaw, Grenada, Holmes, Madison, Webster, and Montgomery Counties.

Out-of-County refers to all Mississippi students that are not In-County students.

	In- County	Out-of- County	Out-of- State
September 6	\$ 69.00	\$ 79.00	\$169.00
October 4	37.00	47.00	37.00
November 1	37.00	47.00	37.00
November 29	37.00	47.00	37.00
January 10 (Includes second semester fees)	63.00	73.00	163.00
February 7	37.00	47.00	37.00
March 7	37.00	47.00	37.00
April 4	37.00	47.00	37.00
May 2	37.00	47.00	37.00
Total for 9 Months	\$391.00	\$481.00	\$591.00

Outstanding students are honored with membership in Phi Theta Kappa.

NOTE: The amounts given include room, board, laundry, medical fee, tuition, fees, school paper, school annual, post office box, and athletic ticket. They do not include books and items of personal expense. They do not include charges listed under "other fees". There are no additional fees for laboratories, music, etc. All students must provide a picture to the school authorities for record purposes. The charges listed above include this school picture.

REFUND POLICY

The following refund policy regarding fees has been adopted for all students. The matriculation fee of \$5.00 is non-refundable. (This fee is a part of the \$25 entrance fee, paid once per semester.) The balance (\$20.00) is refundable as follows: students attending for one week or less will be refunded 75% of listed rate; students attending longer than one week will receive no refund. Out-of-county tuition payable monthly and in advance, is not refundable. The school annual and school paper fees are refundable for the first week of school; after one week there will be no refund.

MEAL TICKETS AND BOARD REFUND

Each student upon payment of his board will be issued a meal ticket good for the current board period. Students will need to present this at each meal or pay for the meal. Meal tickets are not transferable.

No deduction can be made for board for an absence of less than two weeks in succession; a deduction may be made only when the student presents to the office after his return a statement approved by the manager of the student's dormitory specifying the period of his absence.

NON-RESIDENT TUITION

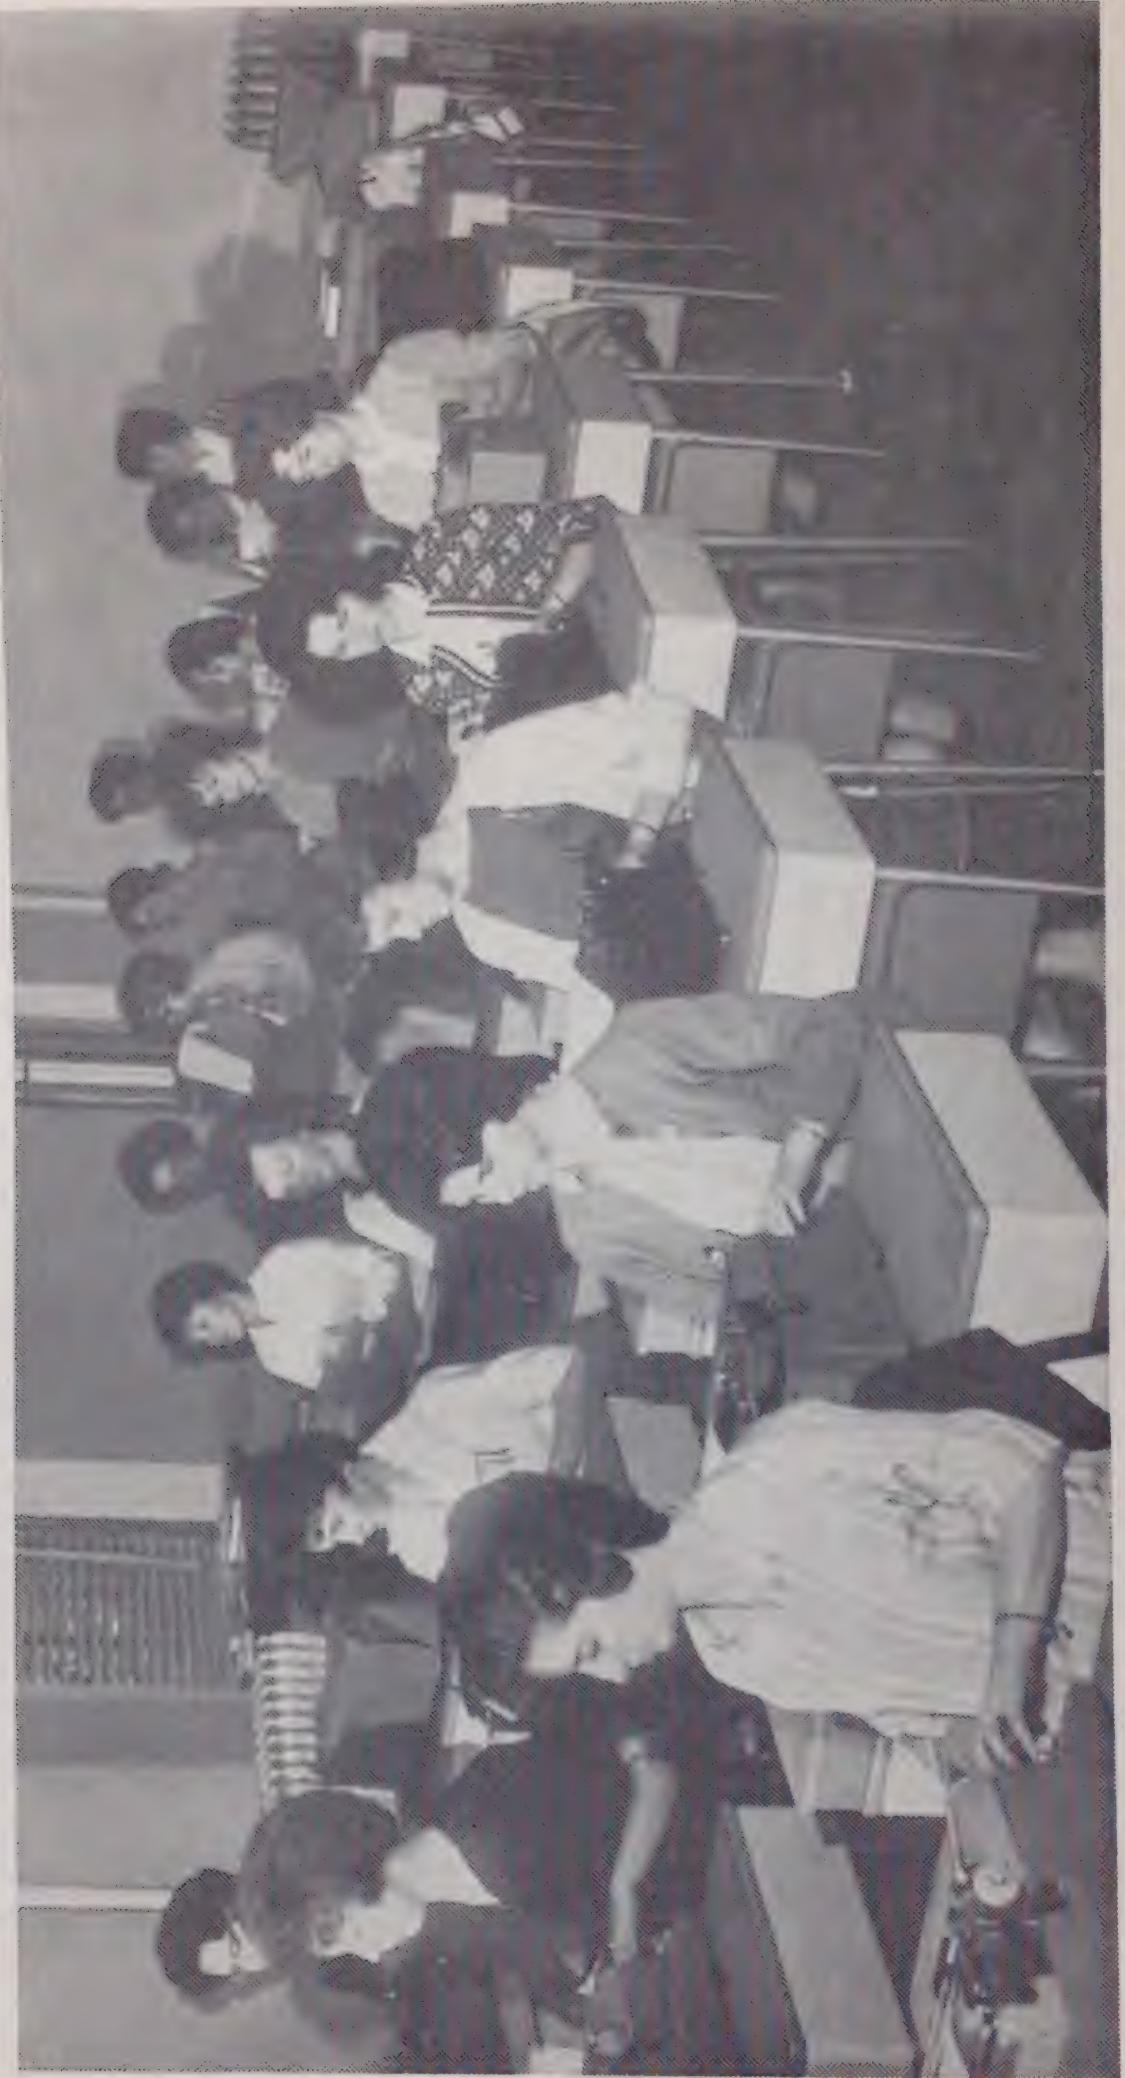

There will be a non-resident tuition charge of \$100.00 per semester for all students whose parents are not legal residents of the state of Mississippi. Non-resident tuition is due and payable at the beginning of each semester.

The following refund policy regarding non-resident tuition has been adopted for all students. Students attending one week or less will be refunded 75% of listed rate; students attending longer than one week will receive no refund.

SUMMER SCHOOL EXPENSES

College (For a three week term)

Board	\$ 30.00
Laundry	3.00

Girls develop speed and accuracy in typing class.

Matriculation	5.00
Fees (\$6.00 per semester hour)	18.00
Total for three weeks	\$ 56.00

Summer School consists of three three-week terms. No student may take more than one hour per week or three hours for three weeks. For additional information write to the Dean, Holmes Junior College, Goodman, Mississippi.

SELF-HELP OPPORTUNITIES

Based on financial need, opportunities are offered deserving young ladies and young men to help defray school expenses. Jobs are available in the cafeteria, the dormitories, and other buildings on the campus. In addition to these, office work is available to those who have had some previous training in this type of work.

Students who are interested in any of these jobs should make application directly to the President.

STUDENT LOANS

Holmes Junior College is participating in the Federal Student Loan Program. High School seniors may make application for loans to pursue college work if there is a need for financial assistance. To receive the loan, the students must be enrolled in regular college work.

Those desiring information concerning a loan should write the President.

GENERAL REGULATIONS

1. Gambling, drinking, possession of intoxicants, and firearms are prohibited.
2. Cooking in rooms is not allowed.
3. All boarding students are required to send their laundry to the college laundry. All articles to be laundered should be marked with the full name of the owner.
4. All students who drive automobiles on the campus must register their automobile with the business manager and receive a permit to operate the vehicle.

ROOM RESERVATIONS

If students desire to live on the campus, they should reserve rooms. In order to do this, it is necessary to send a completed appli-

Scene in biology laboratory

Students in Cosmetology Department

cation for admission (found in the front of this catalog) and the room-reservation fee of \$5.00 to The President, Holmes Junior College, Goodman, Mississippi.

ROOMS AND ROOMMATES

Rooms in the dormitories are furnished with single beds, dressers, chairs, and tables. Students are accountable for the care of the room and the furnishings in them. Each student is expected to supply his own linens.

One's roommate is much more to be considered than the room. The authorities are willing for one to select his own roommate. Should that preference prove unwise, a change can be arranged.

MEDICAL ATTENTION

A nominal medical fee is charged, for which we are able to provide the services of a competent physician. This fee, however, does not provide for medicines prescribed by the physician. In case of serious illness, the parents are notified. In emergencies the school will assume the responsibility of getting students to the nearest hospital, but will not assume the hospital expense.

Each student is required to have a medical examination by his family physician prior to entering Holmes Junior College. A statement of good health or a statement listing major defects must be filed with the college authorities before acceptance can be completed.

LAUNDRY AND DRY CLEANING

The college owns and operates its own laundry and dry cleaning on a non-profit basis. Thus, we are able to give our students excellent laundry service at a minimum cost of \$4.00 per month of four weeks. Dry cleaning charges are minimum.

BOOKS

Books and supplies may be purchased from the book store located in the Lorance Center. Both new and used books are available. The book store will buy books from students at a reasonable discount, depending upon the care that has been taken in the use of the books.

By careful buying and use of books, the cost may be kept to a minimum.

Chess and checkers are played in the Lorance Student Center.

Students enjoy the foods laboratory.

STUDENT PUBLICATION**Newspaper**

The college paper, The GROWL (suggested by our athletic teams known as "Bulldogs"), has won its way into the lives of our students and friends and each one eagerly awaits the following issue. Through the columns of the school paper, the students find a chance to learn the art of news writing at close range. In accordance with an amendment to the constitution of the Student Body Organization, a subscription price of \$1.00 per semester will be collected through the business office.

COLLEGE ANNUAL

HORIZONS, published for the first time during the session of 1928-29, is a credit to the institution and to those who make it a success. It is a beautiful book and in years to come will remind everyone of good friends and pleasant experiences of college days.

ATHLETICS

Our athletic program includes football, basketball, baseball, tennis, and track.

Students representing the school in athletic contests are expected to do satisfactory class work and to conform to all regulations of the Junior College Association, of which this school is a member.

The school also provides a well-organized physical education program for girls and boys.

All girls participating in physical education are expected to furnish their own gym apparel. No apparel should be purchased until after meeting class.

BAND

One of the most enjoyable and profitable activities for our students is work with the band. Every effort is being made to make our band one of the best in the state. To this end, we are offering a limited number of scholarships for key personnel. Every student who has had any previous training, or who is definitely interested, should become a part of this organization.

CHOIR AND GLEE CLUB

The Holmes Junior College Choir (mixed group) and the Girls' Glee Club are two of the most active organizations on the campus. These clubs, under the direction of Mrs. Martha McKie, present annual

Some of the mysteries of the world open in physics laboratory.

Relaxing in a room in the girls' dormitory.

cantatas and concerts and participate in the annual choir festivals. Every spring the groups present programs of sacred music in churches of neighboring towns.

Smaller groups—trios, quartets, sextets, and octettes—are chosen from the Choir and Glee Club and give programs to various groups and to high school assemblies throughout our area. In addition to providing entertainment for these various organizations, excellent training for our young people is provided.

Regular meetings are held every week, and one hour credit is given each semester.

RELIGIOUS ACTIVITIES

Holmes Junior College is a state supported institution, and is therefore non-sectarian. It, however, believes in the full development of the spiritual nature of its students. They are encouraged and urged to take part in the Christian organizations on the campus, as well as to participate in the services of the local churches.

Religious training is obtained through participation in the Student Christian Association, a non-denominational organization of students under the leadership of faculty sponsors. Through denominational group meetings, the bulletin board "Daily Thoughts," and the personal service rendered by the prayerfully chosen Student Christian Association Cabinet Members, the organization touches the lives of all of the students of the campus. An effort is made to include every student capable of leadership or interested in any phase of religious development in the varied programs presented during the year. Upon registration, the student is given an opportunity to become a member of the student Christian Association; or if the student becomes a member of any denominational group, he is automatically a member of the Student Christian Association. The denominational groups on the campus work in co-operation with the local churches and under their supervision.

SOCIAL LIFE

Adequate provision is made for the social development of our students through both formal and informal occasions planned by a joint committee of the students and faculty. All parties, dances, and other entertainment are scheduled through the guidance director so that a minimum of interference with school work will be obtained.

Scholastic Regulations

EXAMINATION AND CLASSIFICATION

Two regular examinations will be held during the session—one at the close of each semester. Tests will be given and grade sheets turned in to the office at the end of each six weeks. The basis of classification is as follows: college freshman, zero to twenty-five semester hours; college sophomore, twenty-six or more semester hours. The classification applies to the record of the student at the beginning of the session. Exceptions may be made at midterm in case of students who expect to graduate at the following commencement.

GRADING

Grading will be made in letters A, B, C, and D as passing grades, F as failing, and I as incomplete. On a percentage basis, grades may be interpreted as follows: A—93 and above; B—85 through 92; C—75 through 84; D—68 through 74; and F—below 68. Incomplete indicates that some necessary work for the course has not been satisfactorily completed. I's must be removed within two weeks following regular school term, or the grade will automatically be recorded as an F.

SEMESTER HOURS

A semester hour of college credit is defined as the credit earned when a course meets one hour per week for eighteen weeks on a lecture basis. Normally 128 to 144 such hours are required for a degree from a senior college. Sixty-four semester hours are required for graduation from most junior colleges.

QUALITY POINTS

Quality points are assigned as follows: three quality points for each semester hour with a grade of A, two quality points for each semester hour with a grade of B, and one quality point for each semester hour with a grade of C.

An average of at least one quality point per semester hour earned is required for graduation at all senior colleges.

GRADE RECOGNITION AND HONORS

Students with a sufficient quality point average are recognized at the end of each six weeks and at the end of the semester.

To be eligible for such recognition a student must be taking at

least fifteen semester hours and have no grade less than a C.

This recognition is divided into three parts as follows:

President's List: those students who have a quality point average of 2.7 to 3.0.

Dean's List: those students who have a quality point average of 2.4 to 2.7.

B-Average Students: those students who have a quality point average of 2.0 to 2.4.

Honors at graduation are as follows: those who have earned a 2.7 and above quality point average for all four semesters will be graduated with "Special Honors"; those who have earned a quality point average of 2.4 to 2.7 for all four semesters will be graduated with "Honors."

REPORTS

A report of the student's work is made to the student and parents at intervals of six weeks. Students who desire a copy of these grades should make a request of the registrar. After one copy has been sent, a charge of fifty cents will be made for additional copies.

ABSENCE FROM CLASSES

A student should realize from the beginning that he suffers a great loss each time he is absent from class and also causes his classmates to lose time.

Students are allowed one absence from each class each semester without question. Once a student has absented himself from class during a semester, for whatever reason, he must at all future times of absence justify the absence as being necessary. Absence due to personal business should be kept to an absolute minimum and must be cleared in advance unless the student can show an emergency was involved.

Parents should realize that students cannot do their best work when they miss classes and that the school cannot honor excuses except for emergencies.

Absences due to school activities are excused, but in all cases the student is responsible to make up work that was missed.

Students missing a scheduled hour test without sufficient reason will not be allowed to make up the test and will receive an F for the test grade.

Grades are lowered when a student cannot justify his absence.

Absences before and after stated holidays will count as double absences.

ACADEMIC FAILURE

A student who fails to pass nine semester hours in a regular semester automatically becomes an academic failure.

An academic failure for one semester is placed on probation and will be subject to strict regulations. An academic failure for two semesters is ineligible to re-enter Holmes Junior College for the next semester.

Admission: Junior College

ADMISSIONS

Students are admitted to Holmes Junior College by certificate, by examination, or as special students.

Graduates of an accredited high school may be admitted on presentation of a transcript showing not less than fifteen acceptable units.

All students must have earned at least four units in English, two units in mathematics, two units in history or other social science, and seven additional units meeting the requirements as set up by the High School Accrediting Commission.

Students majoring in Engineering, Mathematics, or Science must have earned two units in science (biology, chemistry, or physics) and four units in mathematics (algebra, geometry, and trigonometry). Students lacking any of these required subjects will be admitted to Holmes Junior College provided they schedule the deficient high school subject the first semester enrolled here.

Students who are not graduates of an accredited high school may apply for admission by special examination. The student must show through examination that he has the ability to do satisfactory college work.

ADMISSIONS PROCEDURE

In order to be admitted to Holmes Junior College, a student entering for the first time must complete his application prior to registration. The application must be supported by: (1) two letters of recommendation from alumni of Holmes Junior College; (2) a health certificate filled out and signed by the applicant's family physician; (3) if student desires a room in one of the dormitories he should send \$5.00 with a request for a room reservation.

The applicant must provide the registrar with a transcript of his high school work and from each college attended. This must be done by requesting the high school principal and the registrar of each college attended to send a transcript to the Registrar, Holmes Junior College, Goodman, Mississippi. Transcripts are acceptable only when mailed from the school attended to Holmes Junior College.

The American College Test is required for all students entering Holmes Junior College for the first time. Before registering, the scores must be on file in the registrar's office, or the student must pay the fee for the test and take the test on the date designated by the school officials.

When the above requirements have been completed, the applicant

will be notified of his acceptance or rejection as the case may be.

Students who have previously attended Holmes Junior College, are in good standing, and have previously provided the school with a health certificate and an ACT score will have only to request admission to be eligible to attend this institution.

REGISTRATION

All students entering Holmes Junior College for the first time or resuming their studies are required to subscribe to the general schedule of registration which will be given the student when he reports to the school for registration. In general a first time student at Holmes must attend the orientation sessions, have a school picture taken by the school photographer, pay his entrance fees and then register. Other students will have pictures made, but do not attend orientation session.

SCHEDULING CLASSES

When registration has been completed, the student will report to his adviser and complete his scheduling of classes.

The student will then receive his class cards. These cards are to be turned over to the teacher at the first meeting of the classes. No student will be allowed to meet a class without a class card.

WITHDRAWAL

When a student withdraws from Holmes Junior College, he is expected to fill out a withdrawal form and have it signed by the proper authorities. Any student leaving school without his debts to the school being cleared will have his records frozen. These records will remain frozen until the student clears up his financial indebtedness to the school.

A grade of **W P** will be assigned to a course when a student withdraws after the first six weeks of school and was passing the course at the time of withdrawal. A grade of **W F** will be assigned if he was not passing at the time of withdrawal. A student failing to withdraw will receive an **F** in all subjects.

REQUIREMENTS FOR GRADUATION

Candidates for graduation may pursue either of two courses: first, the "Associate of Arts Degree"; and second, a "Certificate of Graduation."

A candidate for the "Associate of Arts Degree" must complete a

minimum of 64 semester hours including not more than four non-academic hours. The hours earned must be applicable to a course outlined in our catalogue. The candidate must earn at least 64 quality points on subjects applicable to his chosen course of study. Six hours of English composition are required of all candidates.

Candidates for the "Certificate of Graduation" must complete 64 semester hours. Six semester hours of English composition are required of all candidates. Students who expect to work toward a degree would not pursue this objective.

Nine months of residence work are required for graduation.

Candidates for graduation should file their applications for Associate of Arts, Certificate of Graduation, or special department certificate with the Registrar not later than February first for graduation in May.

TRANSCRIPTS

One transcript will be furnished each student free of charge. For each additional transcript, there will be a charge of one dollar.

COURSE XXXII**Cosmetology**

This course is designed for beauticians and hair dressers. It is approved by the State Board of Education and the Mississippi Board of Cosmetology. A student who satisfactorily completes this course will be issued a certificate which entitles her to take the State Cosmetology Board examination for a license to become a beauty operator in the State of Mississippi.

To be accepted as a student in cosmetology, the following must be completed:

1. Application blanks must be properly filled out.
2. Two health certificates must be filled out and signed by your doctor within one month of your entrance.
3. Provide proof of tenth grade educational attainment. (This is normally done by having a transcript of your high school record sent to the registrar at Holmes Junior College.)
4. An interview with your teacher must be completed.
5. Deposit \$25.00 with the business office at Holmes Junior College. This deposit is **non-refundable**.
6. If a room is desired in one of the girls' dormitories, a specific request must be made. The \$25.00 deposit covers the room deposit of \$5.00.
7. Two letters of recommendation from former Holmes Junior College students are required.

The class is limited to twenty students. Admissions are processed in the order of receipt of the \$25.00 deposit. However, failure to send in the required entrance information, or to have your interview with your instructor by one week previous to the opening of school may cause you to lose your priority.

The fees for this course are \$100.00, plus the cost of books and graduation fee. Room, board, and laundry are available on the campus at the regular student rate of \$37.00 per four weeks of school.

COURSE TE 320**Radio**

The duration of this course is twelve months.

Radio maintenance and construction, electricity of radio, and design and operation of equipment must be mastered by the student. The student must learn the use of all tools and necessary equipment for construction work in receiver and transmitter operation. Circuit design and operation of equipment is required of each student.

COURSE TE 430**Television and F. M.**

The duration of this course is six months.

The course is designed to give the student experience in the construction and operation of television and F. M. receiver by building and operating the equipment. Television and F. M. antennae will be constructed. Maintenance and repair of television and F. M. receivers, the proper use of tools and necessary equipment, and television theory are required for this course.

Description of Courses

ACCOUNTING

Miss Tucker

AC 103-203—Accounting Principles.

Two lectures. Two hours laboratory. Three credits each semester. Theory of debit and credit; business papers; books of original entry; ledgers; working papers; financial statements; sole proprietorship; partnerships and simple corporation transactions.

AC 413—Cost Accounting.

Three lectures. Three credits.

Cost accounting principles and techniques as applied to both job order and continuous process types of industry. The determination of unit costs and the preparation of costs reports are emphasized throughout the course.

AGRICULTURE

Mr. Thomas, Mr. Almond

AG 223—Farm Forestry.

Two lectures. Two hours laboratory. Three credits.

A general course in forestry, special emphasis being placed upon objectives and needs for forestry, conservation of forests, methods of establishing forests, management of forests and soil erosion by reforestation.

AG 303—Plant Science. (Prerequisites BI 223; CH 114).

Two lectures. Two hours laboratory. Three credits.

Scientific principles as the basis for practices in producing, handling, processing, marketing, and utilizing agronomic and horticultural plants.

AG 313—Principles of Livestock Feeding

Two lectures. Two hours laboratory. Three credits.

Basic principles of feeding farm animals; feeding standards; composition and nutritive value of feeds; compilation of rations; preparation of ration and interpretation of feeding tests.

AG 344—Soils.

Three lectures. Two hours laboratory. Four credits.

This course is designed to give the student a basic concept of general soils, including soil genesis, classification, and the physical, chemical, and biological aspects of soils. Soil management, including fertilization, liming, and terracing will also be stressed.

AG 353—Principles of Agricultural Economics.

Three lectures. Three credits.

A general course on the basic principles of economics and their application to agriculture. Special emphasis will be placed on economic problems of agriculture. American economic development, production, and business organizations: the law of diminishing returns, some principles of trade and production, farm organization, exchange value and the market price, cost of production, price level movement, and the farm problem and the government.

AG 404—Animal Science.

Three lectures. Two hours laboratory. Four credits.

Fundamental principles and practical application of livestock, dairy, and poultry science.

BIOLOGY
Mr. Miley

BI 103—General Zoology.

Two lectures. Two hours laboratory. Three credits.

A survey of the animal kingdom designed to give some acquaintance with the basic biological principles and facts underlying all life. Representatives of all phyla are studied from the standpoint of morphology, physiology, ecology, etc.

BI 104—General Zoology.

Two lectures. Four hours laboratory. Four credits.

Same as BI 103 except for laboratory.

BI 203—General Zoology.

Two lectures. Two hours laboratory. Three credits.

A study of the structure, habits, development, function, distribution, heredity, and economic importance of chordate animals.

BI-204—General Zoology.

Two lectures. Four hours laboratory. Four credits.

Same as BI 203 except for laboratory.

BI 223—General Botany.

Two lectures. Two hours laboratory. Three credits.

A survey course in the fundamental facts and principles of plant life, with particular reference to form, structure, physiology, and reproduction in representatives of the group of higher plants.

BUSINESS LAW

Mr. Allen

BL 303—Business Law.

Three lectures. Three credits.

Normal business relations from a legal standpoint with emphasis on the laws of contracts, agency, negotiable instruments, and employer-employee relations.

CHEMISTRY

Mr. Sanders

CH 114-214—General Chemistry.

Three lectures. Three hours laboratory. Four credits each semester. An introductory course dealing with such fundamentals as atomic structure, chemical formulas, equations, reactions, ionization, quantitative measurements and calculation, and the preparation and properties of inorganic substances.

CH 325-425—Organic Chemistry.

Three lectures. Six hours laboratory. Five credits each semester. Prerequisites CH 114 and CH 214. A study of the aliphatic and aromatic compounds based on the structure theory. Special attention is given to the nomenclature, preparation, reaction, properties, and uses of typical compounds of the various organic groups.

DRAWING

Mr. Thorne, Mr. Hambrick

DR 102—Engineering Drawing.

Six hours laboratory. Two credits.

The use of instruments; geometric constructions; orthographic projections; dimensions; lettering; instruction and practice in technical sketching and sketching from models.

DR 202—Engineering Drawing.

Six hours laboratory. Two credits.

Prerequisite DR 102. Continuation of DR 102. This course includes sections, conventions, fasteners, pictorial drawings, charts and graphs of detail and assemblies, and a project involving all phases of draftsmanship.

DR 413—Descriptive Geometry.

Two lectures. Three hours laboratory. Three credits.

Prerequisite DR 102. Theory of drafting; exercises in engineering problems; discipline in developing the ability to visualize points, lines, and surfaces under various conditions; practical applications.

ECONOMICS

Mr. Allen, Mr. Thomas, Mr. Sudduth

EC 313—Principles of Economics.

Three lectures. Three credits.

Economic system of the United States; consumers, producers, banks, government, labor unions; contrasts with communism.

EC 413—Principles of Economics.

Three lectures. Three credits.

Forces of demand and supply in markets for goods, capital, labor, and land.

ENGLISH

Miss Bostwick, Miss Jackson, Mr. Burnham

EN 113-213—English Composition.

Three lectures. One hour laboratory. Three credits.

This course consists of a review of grammar and usage, study of fundamentals of composition, and analysis of selected prose. Methods of study and the use of the library are stressed. Second semester's work is a continuation of the first with preparation of a research paper included.

EN 333-433—A Survey of English Literature.

Three lectures. Three credits.

The work of the first semester in this course is a survey of English literature from the beginnings through the eighteenth century. Emphasis is placed primarily on the literature itself with some attention given to biographical studies, criticism, and historical backgrounds. The course for the second semester begins with the English Romantic Movement and continues to the present. (Prerequisites EN 113, 213 or equivalent).

HOME ECONOMICS

Miss Carithers

HE 103-403—Foods and Nutrition.

Two lectures. Two hours laboratory. Three credits.

This course gives the student the fundamental principles of foods with special reference to their selection, purchasing, composition, preservation, preparation, serving, nutritive value, and place in

diet. A study of the nutritive requirements of the body and the quality of food necessary to meet these requirements.

HE 233-333—Textiles and Clothing.

Two lectures. Two hours laboratory. Three credits.

The purpose of this course is to make a study of the textile fibers (cotton, linen, wool, silk, and rayon) and of weaves, adulterations, and finishes used for each; clothing selection and construction with consideration of the economic, aesthetic, and hygienic aspects. It includes the application of the principles of color and design to individual selection, pattern adaptation and alteration, and care and repair of clothing.

HISTORY
Miss Strahan

HI 103—Early World Civilization.

Three lectures. Three credits.

This course is intended as a survey of world civilization from prehistoric times to the discovery of America. The main purpose will be to study the trends in the history of the world with particular emphasis on their relation to present day living. The object of the course is to study the political, social, economic, and religious thought of the times, together with the wars and science and art of those times.

HI 203—Modern World Civilization.

Three lectures. Three credits.

This course is a continuation of HI 103. One-half of the work will be devoted to the twentieth century with its two great world wars. The same approach will be used as in HI 103.

HI 333-433—Early and Modern U. S. History.

Three lectures. Three credits.

A survey of U. S. History from 1787 through the Civil War in HI 333 and from the Civil War to the present in HI 433.

INDUSTRIAL EDUCATION
Mr. Thorne, Mr. Hambrick

IE 263—Woodwork.

Six hours laboratory. Three credits.

Knowledge, appreciation, and skill in the use of hand tools, wood joints, finishes, fasteners, and job planning.

IE 333—General Metals.

Six hours laboratory. Three credits.

Design in metal; new materials; jigs; machine processes and metal finishes; construction of metal projects.

IE 363—Advanced Woodwork.

Six hours laboratory. Three credits.

Prerequisite IE 263. Mill practices and techniques; machine and tool operation; job planning and design.

IE 433—Forging and Welding.

Six hours laboratory. Three credits.

Practice in hand forging; annealing, hardening, and tempering of tool steel; gas and electric welding.

MATHEMATICS

Mrs. Jacob, Mr. Drake

MA 113—College Algebra.

Three lectures. Three credits.

Review of fundamentals, linear and quadratic equations, simultaneous equations, theory of equations, probability, and partial fractions.

MA 153—Analytic Geometry.

Three lectures. Three credits.

A study of the straight line, circle, parabola, ellipse, and hyperbola, taking up translations and rotation, polar co-ordinates, higher plane curves and normals.

MA 163—Differential Calculus.

Three lectures. Three credits.

The derivative; differentiation; maxima and minima; geometric applications; rates of change; and partial differentiation.

MA 243—Trigonometry.

Three lectures. Three credits.

Trigonometric functions; solutions of right and oblique triangle; identities; inverse functions; graphs of functions; and complex numbers.

MA 273—Integral Calculus I.

Three lectures. Three credits.

The definite integral; formal integration; application to areas, volumes, and moments.

MA 383—Integral Calculus II.

Three lectures. Three credits.

Multiple integrals; approximation of integrals; series; Taylor's Theorem; and application to practical problems.

MA 493—Differential Equations.

Three lectures. Three credits.

Solution of first and higher order differential equations; existence theorems; solution by series; and application to problems in geometry, physics, and chemistry.

MODERN LANGUAGE
Mrs. Owen**ML 103-203—Elementary French**

Three lectures. Three credits.

Elementary grammar, composition, dictation, translation, reading, and conversation.

ML 303-403—Intermediate French.

Three lectures. Three credits.

A thorough review of French grammar; vocabulary building with particular attention to the mastery of common idioms; dictation; conversation; extensive reading.

MUSIC
Mrs. McKie, Mrs. Lorance, Mr. Weems**MU-101,201,301,401—Music Appreciation.**

One-half hour lecture. Two hours of laboratory. One credit each semester. A cultural course to develop an understanding and appreciation of various musical forms and the literature of music. Participation in either choir or band is a requirement of this course. No credit will be granted unless all four courses are taken.

MU 104,204—Music Theory.

Three hours lecture. Two hours laboratory. Four credits each semester. Recognition and part writing. Diatonic intervals, major and minor triads, rhythmic and melodic patterns. Correlated keyboard harmony and dictation. Sight singing in bass and treble clefs.

MU 304,404—Music Theory.

Three hours lecture. Two hours laboratory. Four credits each semester. A continuation of MU 104, 204. Advanced training in harmonic and rhythmic ear training, sight singing, part writing, and keyboard harmony. Analysis and creative work; seventh, ninth, thirteenth and altered chords.

MU 113—Music Appreciation.

Three lectures. Three credits.

A cultural course to develop an understanding and appreciation of various musical forms and the literature of music. Attendance at all recitals is mandatory.

MU 151, 251, 351, 451—Band.

Five hours laboratory. One credit.

PIANO
Mrs. Lorance

PI 103-203—Freshman Piano.

Three credits each semester.

All major and minor scales and arpeggios; Bach two-part inventions; Czerny Opus 299; easier Hayden, Mozart, and Beethoven sonatas; other compositions of romantic and modern composers. Practice required: two hours per day.

PI 142-242—Freshman Piano.

Two credits each semester.

This is a course offered for those who desire to study piano without securing a major in it. Work will be assigned which will meet the particular needs of each pupil. Practice required: six hours per week.

PI 303-403—Sophomore Piano.

Three credits each semester.

Major and minor scales in thirds, sixths, and tenths; arpeggios; Czerny Opus 740; Bach three-part inventions; preludes and fugues; sonatas of Mozart and Beethoven; compositions representative of romantic and modern composers. Practice required: two hours per day.

PI-342-442—Sophomore Piano.

Two hours credit each semester.

A continuation of PI 142 and PI 242.

VOICE
Mrs. McKie

VO 103-203—Freshman Voice.

Three credits each semester. Two half-hour lessons a week. Foundation building; vowels and consonants, their character, treatment and relation to vocal tone; exercises for flexibility of the muscles of articulation; mechanism of speed; and science of tone production. Simple songs.

VO 111, 211, 311, 411—Glee Club.

One credit each semester.

Meets four times a week throughout the year.

VO 121-221—Class Voice.

One credit each semester.

Two hours a week throughout the year.

VO 131, 231, 331, 431—Voice for Students Not Majoring in Voice.

One credit each semester.

VO 303-403—Sophomore Voice.

Three credits each semester. Two half-hour lessons a week throughout the year.

Breathing exercises; rhythms; purity of vowels and sound and enunciation studies; phrasing; vocalize Marenisi, Concone, etc.; English, Italian, and French songs, both classical and modern.

INSTRUMENTATION

Mr. Weems

IN 102, 202, 302, 402—Woodwind.

Two credits each semester.

Instruction and practice on instrument.

IN 112, 212, 312, 412—Brass.

Two credits each semester.

Instruction and practice on instrument.

IN-132, 232, 332, 432—Strings.

Two credits each semester.

Instruction and practice on major instrument.

IN 142, 242, 342, 442—Percussion.

Two credits each semester.

Instruction and practice on major instrument.

OFFICE ADMINISTRATION

Miss Tucker, Mr. Allen, Mrs. Wilson

OA 102—Elementary Typewriting.

Three lectures. Two credits.

Mechanism and care of the typewriter; its operation; keyboard drills to gain speed and accuracy; introduction to letter forms. Students with a year of high school typewriting cannot receive credit for this course.

OA 113—Elementary Typewriting.

Three lectures. Three credits.

The theory and practice of Gregg and Simplified Shorthand. The principles are applied by reading and writing shorthand with a limited amount of dictation and transcription from shorthand notes. Students with a year of high school shorthand cannot receive credit for this course.

OA 202—Intermediate Typewriting.

Three lectures. Two credits.

Advanced drills for speed and accuracy; letter forms; telegrams and other business forms; manuscript typewriting.

OA 213—Intermediate Shorthand.

Three lectures. Three credits.
A continuation of OA 113.

OA 302—Advanced Typewriting.

Three lectures. Two credits.
A continuation of OA 202.

OA 313—Advanced Shorthand.

Three lectures. Three credits.
The aim of this course is to increase accuracy and speed of transcription with emphasis on mailability of letters.

OA 333—Business Correspondence.

Three lectures. Three Credits.
Main emphasis is upon business letter writing. Correctness of composition, choice of words, psychological approach, arrangement of materials and correspondence methods are included. Actual office problems are presented, solved by the students, and completed in typewritten forms. Speed and accuracy are stressed.

OA 402—Advanced Typewriting.

Three lectures. Two credits.
Actual office problems are presented, solved by the students, and completed in typewritten forms. Speed and accuracy are stressed.

OA 413—Shorthand for Secretaries.

Three lectures. Three credits.
The continuation of OA 313. A minimum of 100 words per minute should be reached on new material and 120 words per minute on old material.

OA 422—Filing.

Two lectures. Two credits.
The various systems of filing with sufficient practice in the laboratory to develop skill in the operation of the systems. Coding, indexing, equipment and materials are emphasized.

OA 443—Office Machines.

Three lectures. Three credits.
Finger technique and speed in the operation of key-driven calculators, full keyboard adding-listing machines, and crank driven calculators. Other machines will be introduced also.

PHYSICAL EDUCATION

**Mr. Lauderdale, Mr. Darnell, Mr. Fortenberry, Miss Thomas,
Mr. Gibson**

PE 101, 201, 301, 401—Physical Development.

Two hours laboratory. One credit each semester.

These courses include varied exercises—such as volleyball, basketball, tennis, and calisthenics.

PE 111, 211, 311, 411—Physical Education for Girls.

Two hours laboratory. One credit each semester.

These courses include indoor and outdoor exercises. These courses are required for all girls.

PE 183—History and Principles of Physical Education.

Three lectures. Three credits.

An interpretation of aims and objectives of physical education based on the finding of science.

PE 273—Health.

Three lectures. Three credits.

This course is designed to meet the needs of the students just starting on a college career. Anatomy and physiology are discussed; but the emphasis is placed upon hygiene of rest, study, recreation, habit, exercise, and extra curricular activities.

PHYSICS

Mr. Drake

PH 113—Physical Science Survey.

Three lectures. Three credits.

Designed for the non-technical student. A survey of the fundamental laws of physics and astronomy.

PH 213—Physical Science Survey.

Three lectures. Three credits.

Designed for the non-technical student. A survey of the fundamental laws of chemistry, meteorology, and geology.

PH 324—General Physics.

Three lectures, one hour drill. Two hours laboratory. Four credits.

Fundamental laws of mechanics, heat and sound.

PH 424—General Physics.

Three lectures, one hour drill. Two hours laboratory. Four credits.

Fundamental laws of electricity and optics.

POLITICAL SCIENCE

Mr. Sudduth

PS 313—Government of the United States.

Three lectures. Three credits.

This course consists of a survey of the principles and practices of American government as exemplified more particularly in the national field. Attention is given to the trends in the state and local government.

PS 423—American State and Local Government.

Three lectures. Three credits.

This course outlines the organization and problems of state government in the United States. The different forms of local government are discussed as parts of the state government organization. Specific application to conditions existing in Mississippi will be made.

PSYCHOLOGY

Mr. Sudduth, Mr. Martin

PY 101—Improvement of Study.

Three hours laboratory. One credit.

Improvement in study habits with an emphasis on increasing reading speed and comprehension.

PY 333, 433—General Psychology.

Three lectures. Three credits each semester.

Introduction, individual development, motivation, emotion, motor function, sensory and neural functions, intelligence, learning, perceiving, thinking, social behavior, and personality.

SOCIOLOGY

Mr. Sudduth

SO 303—Introduction to Sociology.

Three lectures. Three credits.

The nature and development of culture; social aspects of personality; analysis of community life; population trends; social classes; institution processes and organizations; cultural change.

SPEECH

Miss Bostwick

SP 423—Oral Communication.

Three lectures. Three credits.

Correct and effective English; correct pronunciation and enunciation; breath control; study and practice in making speeches for all occasions; major emphasis on organization of material; and practice in speaking before the group.

TECHNICAL EDUCATION

Mr. Thorne, Mr. Hambrick

TE 102—Engineering Drawing.

Six hours laboratory. Two credits.

The use of instruments; geometric constructions; orthographic projections; dimensions; lettering; sketching.

TE 202—Engineering Drawing.

Six hours laboratory. Two credits.

Prerequisite TE 102. This course includes sections, conventions, fasteners, pictorial drawings, charts and graphs of detail and assemblies, and a project involving all phases of draftsmanship.

TE 133—Blueprint Reading.

Three lectures. Three credits.

A basic course involving actual problems in reading architectural, mechanical, and structural drawings. Students are required to make and use blueprints.

TE 233—Structural Design.

Three lectures. Three credits.

A study of the principles of structural design.

TE 315—Architectural Drawing.

Ten hours of laboratory. Five hours credit.

A study of the fundamental principles of architectural practices and techniques involving the development of complete house plans.

TE 343—Costs and Estimates.

Three lectures. Three credits.

Prerequisite TE 133. A study of the practical everyday work of the building contractor's estimator.

TE 413—Descriptive Geometry.

Two lectures. Three hours laboratory. Three credits.

Prerequisite DR 102. Theory of drafting; exercises in engineering problems; discipline in developing the ability to visualize points, lines, and surfaces under various conditions; practical applications.

TE 415—Structural Drafting.

Ten hours laboratory. Five credits.

Prerequisites TE 102, TE 202, TE 233. An introductory course dealing with such fundamentals as techniques used in structural drafting, catalogs, handbooks, reference books, theory of structural drafting, and facts underlying structural steel.

TE 453—Topography.

Three lectures. Three credits.

A survey course dealing with the principles of topography and topographic mapping.
